Prague, Czech Republic

More information can be found [here](#).

Online or Ongoing

AAMC Leadership Education and Development (LEAD) Certificate Program

The Association of American Medical Colleges is accepting applications for a new cohort of participants in the LEAD Certificate Program. Designed for early- to mid-career faculty, the program provides a firm foundation in the best practices and recognized theoretical models of effective educational leadership that are key to advancing medical education at all levels. Participants (Fellows) gain knowledge, skills, values, and real-life application that faculty and professionals in academic medicine need to be successful educational leaders. For more information and to apply, visit the **LEAD Certificate Program webpage**.

American Lung Association Asthma Educator Institute

The American Lung Association Asthma Educator Institute is a two-day preparatory course for those qualified to take the National Asthma Educator Certification Board (NAECB) examination. Developed in January 2003, the Asthma Educator Institute was recently updated to reflect the National Asthma Education and Prevention Program Expert Panel Report 3: Guidelines for the Diagnosis and Management of Asthma. **Visit the ALA website** for more information.

Clinical Advances in Allergy Management

Clinical Advances in Allergy Management is a Medscape website that offers a unique collection of educational activities

delivered by leading experts in the field designed to address the challenges of allergy management: selecting the most effective treatment approach, improving patient adherence to treatment, and utilizing the latest available therapies. Visit **Medscape** to review the resources currently available.

Disagreeing Better Toolkit for Clinicians and Care Teams

The Disagreeing Better course was developed by Dr. Julia Minson with funding from the CDC and is meant to improve the value of interactions between clinicians and vaccine hesitant patients. Though it was developed to address vaccine hesitancy, the course would be relevant for any difficult conversations that clinicians have with patients and is based on her years of research on conflict as a professor at Harvard University. The course is made up of nine brief interactive modules. It is offered free of charge and up to 1.5 *AMA PRA Category 1 Credits* are available.

Empowering Food Allergy Management: A Micro-Course Series for Providers

Join an online community dedicated to enhancing knowledge and understanding of food allergy management through a six-week micro-course series. This series aims to empower both healthcare providers and patients with evidence-based insights, fostering continuous learning and collaboration through short-form videos, live webinars, and interactive discussions. **This is a non-CME activity** and may require creation of a free account through AllergistMama's Allergy Alliance.

New Horizons in the Management of Chronic Spontaneous Urticaria

Addressing the need for new CSU treatments, this CME-certified webinar delves into the pathophysiology, treatment targets, MOA, and clinical data of novel agents to treat CSU. Paradigm Medical Communications LLC, an ACCME-accredited provider, designates this enduring material for a maximum of 1.0 *AMA PRA Category 1 Credit*[™]. There is no cost to participate.

Talking COPD LIVE: Interactive Clinical Challenge – Level Up Your COPD Management

Speakers: Sonali Bose, MD and Mei Lan Han, MD

Dr. Bose and Dr. Han present key clinical findings in COPD Management. This activity includes four modules: COPD Management, Highlights from 2025 Conferences and Publications, Persistent Dyspnea Despite Guideline-based Therapy (Case Review) & Recurrent Exacerbations in Biomarker-defined Subgroup (Case Review).
