

<u>Washington State Society of Allergy, Asthma and Immunology-</u> <u>Education Advocacy and Research Foundation</u> 2020 Northwest Allergy Forum

## Saturday, October 3, 2020

Moderator - David Jeong, MD

7:00 am	Industry Portals
7:30-8:00am	Registration/ Sign In!
8:00-8:10 am	Welcome and Overview
8:10-9:10 am	Food Allergy at the Dawn of the Treatment Era: Current and Future Directions~ <b>Brian</b>
	Vickery, MD
9:10-10:10 am	Novel Therapeutics in Severe Asthma~ Thomas B Casale, MD
10:10-10:30 am	Break, Industry Portals
10:30-11:30am	What is New and What is Old in Eosinophilic Esophagitis~ Jonathan M Spergel, MD
11:45-12:30 pm	State Society Meetings
12:30-1:00 pm	Lunch Break, Industry Portals
1:00-2:00pm	Regulation of Allergic Responses to Food by Intestinal Bacteria~ Cathryn Nagler, Ph.D.
2:00-3:00pm	Coding for the Allergist in 2020 and 2021~ Teresa Thompson, CPC
3:00-3:05pm	Conclusion of Meeting
3:05-4:00pm	Industry Portals will be open until 4pm

## **Learning Objectives**

Upon completion of this activity, participants should be able to:

- 1. Describe available and upcoming novel therapeutics for the treatment of food allergies and understand current research and initiatives of the new CoFAR.
- 2. Discuss the role of available and upcoming biologic therapies for severe, refractory persistent asthma.
- 3. Recognize the pathophysiology, clinical manifestations, diagnosis, and management of eosinophilic esophagitis, and understanding of these aspects has evolved over time.
- 4. Understand how food allergic responses are influenced by the gut microbiome.
- 5. Apply updated coding requirements for clinical visits (in person and telemedicine) resulting from changes due to the COVID19 pandemic as well as for implementation of OIT in clinical practice.

## **Target Audience**

Allergy/Immunology Trainees, Medical Students Residents, Postdoctoral Fellows, UW Allergy Section faculty, nurses, pharmacists, UW Medicine faculty in related specialties (e.g. Pulmonary / Critical Care Medicine), Local Allergists and their affiliated staff, Members of the Washington and Oregon State Societies of Allergy, Asthma & Immunology, Allergists in Alaska, Oregon, Idaho, Montana, Nevada and California.
